

## **IDESS Maritime Centre (Subic) Inc.**

### **Helicopter Underwater Escape Training with Emergency Breathing System Course**

#### **Description:**

The program is designed for personnel who may travel to offshore installations or ships by helicopter and who may be using an emergency breathing system in cold waters.

#### **Objectives:**

Delegates who successfully complete the program shall be able to demonstrate escaping from a helicopter simulator under various types of emergencies both with and without the use of an emergency breathing system.

#### **Course Outline:**

- Helicopter Safety and Escape
- Emergency Breathing System

#### **Entry Standards:**

Trainees shall be medically fit for physical training.

Minimum number of participants is one (1) and maximum is sixteen (16).

#### **Certification:**

A certificate of successful completion shall be issued to those delegates who successfully complete the program and meet the assessment criteria. The certificate is valid for four years.

#### **Accreditation:**

OPITO Approved

#### **Duration:**

1 Day
